“ That is my loving brother he was 63 years he was born in Haiti back in 1959 from Nicole Santos de la Cruz as first child of a beautiful young woman with his father Francis beneche a Haitian business man. Vick and I got together for 33 years leaving in the Maryland area since he left Haiti to Santo Domingo stay there with his mom learn that Dominican costum real fast next thing he turn to be a nice young man. Again came back to Haiti trying hard to learn his ways but was not too happy with the Haitian life spoke to his dad in a mean fashion that he wants to be a doctor, his father decided for him to go to Mexico so he can get the best education for his future but as you may be aware life as a young pretty boy he was every woman fantasy spoke well Haitian Creole and with his Dominican accent he was a dear loving extravaganza with the way he express himself to people that is why he had so many friends and family members who loves him so much. Since Mexico was a country if you don't have your head on your shoulders you may loose it. He decided to get a united States visa as a student so he can be immigrated in the Us back in 1979 he work as a security officer for a high rise complex in Brooklyn New York as his brother we always spoke while I was in Haiti he will have telegram sent to teleco with a time to be there so we can talk he always told me Donald o love you all and there will be a time we are going to be together just be careful in Haiti. I remember me and my brother we both little ha was driving a chair as a truck so we can travel I was in the back he was still asking me was I alright, I also remember our grand father Louis that we call atiti purchased a big black shoes for both of us a black pants and a white shirt so me and my brother can go take pictures black and white no color at that time now we progress with technology. My brother and I did so many things together. We stay in a one bedroom house with my grand mother Esther my aunt Marie Ange and my lovely uncle guytho who will do what ever he can to give us food Esther mayo grand ma always kept is in good shape we never stay out anything. Victor was a brother a friend cousin everything we can think as good that was him. Brother you left in Haiti once and twice and you stay away for a while now we came we stayed together for a long time from New York to Rhode Island spent more than 10 years driving a forklift and always working and last he said to me brother when ever I died if I do only regret that I will have is my daughter, that was so sad when he told me that. Valerie st aubin will suffer a lot for not having the love of her dad. Brother my sorrow just started and I'm so glad that you where my real brother from the same mother that is the best love and our memories will never dies. Love you brother see you soon.
